

Reservation / Registration

A ROADEX IV Final Seminar will be held in the Hotel Santa Claus, Rovaniemi on 25-26 April 2012, free to all registrants. Refreshments and a light lunch will be provided during the course of the day.

Registration should be made through the on-line registration screen at <http://www.roadex.org/index.php/registration/online-registration>.

or alternatively, registration may also be made by telephone, fax, or e-mail quoting "The ROADEX IV Final Seminar" to:

Ari Kilponen, Head of Strategic Planning, Transport and Infrastructure, The Centre for Economic Development, Transport and the Environment for Lapland

Tel: +358 40 518 3461
Fax: +358 16 310 340
E-mail: ari.kilponen@ely-keskus.fi
Post: Centre for Economic Development, Transport and the Environment for Lapland
P.O. BOX 8060, FI-96101 Rovaniemi

A seminar dinner will be held in Rovaniemi on the evening of Wednesday 25 April 2012, ticket price 70 €.

Early registration for the seminar is advised. Numbers are likely to be limited.

A seminar by "The Barents Low Volume Road Management Project" will also be held at the same location on Tuesday 24 April 2012.

Further information on both seminars, and registration details, can be obtained from the ROADEX website at www.roadex.org.

The ROADEX IV Project

Advancing the management and maintenance of low volume roads across the Northern Periphery

Final Seminar

- 25-26 April 2012
- commencing 9:30am
- Hotel Santa Claus, Rovaniemi
- (registration opens 9:00am)

The European Union ROADEX Project is an INTERREG IIB EU trans-national roads collaboration between northern roads districts of Finland, Iceland, Ireland, Greenland, Norway, Scotland and Sweden that aims to develop new ways for interactive and innovative management of low traffic volume roads across the northern periphery of Europe.

The Partners in the ROADEX III project are The Highland Council, The Forestry Commission and The Western Isles Council of Scotland, The Centre for Economic Development, Transport and the Environment for Lapland, the Northern Region of The Norwegian Public Roads Administration, the Northern Region of The Swedish Transport Administration, The Icelandic Road Administration, The National Roads Authority and The Department of Transport of Ireland, and The Government of Greenland. Their areas share many of the problems of life in the northern latitudes; sparse populations, remote settlements, difficult terrain, poor ground conditions, long winter seasons, low traffic volumes and long distances to markets. The ROADEX project was created to ensure that the good working practices and research being carried out for roads within the area was shared as fully as possible.

The most recent phase of the ROADEX Project, "ROADEX IV – Implementing Accessibility" commenced in June 2009 with the aim of reinforcing the ROADEX collaboration and demonstrating the developed ROADEX technologies on the Partner road networks. The final seminar of the Project, to be held in the Hotel Santa Claus, Rovaniemi on 25-26 April 2012, will present the results of the project tasks and update delegates on developments within ROADEX.

You are cordially invited to the final seminar of the ROADEX IV Project.

Krister Palo
International Co-ordinator
Swedish Transport
Administration

Ari Kilponen
Project Representative for the Centre
for Economic Development, Transport
and the Environment, Lapland

Seminar Programme

25-26 April 2012
