

# IKT Group 3 – Models and data distribution

Results of autumn meeting 2012

# Participants

- Anders Lintner
- Magnus Fredriksson
- Kristin Gryteselv
- Magnus Haugsand
- Hersir Gislason
- Leif Granholm
- Tobias Thorsson
- Dennis Olsson
- Erik Kjems
- Hans Jørgen Larsen
- Antje Hansen
- Lars Tengnagel
- Jørgen Wanscher
- Lise Gerd Pedersen
- Patrick Mc Gloin
- Mona Dahlberg

# Special themes

- Alternative technical models
- How to use the models
- How can we make it simple for the user?
- How to distribute and exchange data
- Governance

# What did we talk about?

- Objects versus linear referencing
  - Eriks model
  - NVDB model
- Inspiration from Tekla, BIM, IFC
- NVDB and the new webservice
- Datakataloget (Norwegian Data Catalogue)

# Summer meeting 2013

- Demo of dataflow – use cases
  - Design / construction
  - Edit / maintenance
  - Sharing / extract of data
- Use case (best practise):
  - Starting point in different countries handling of data
  - Describe a typical progress (every country describes a typical progress in 20 minutes including a demo)
- Chair: Erik / Backup: Patrick
